

## Sharing Airspace With Birds - A Talk With NOAA

Flying around the Bay and California Coast spoils us with some of the most scenic views in the country. With that comes the responsibility to fly in an environmentally responsible manner when it comes to wildlife – specifically birds. Join us for a talk by representatives from NOAA (National Oceanic and Atmospheric Administration) who will provide an overview of local bird habitats, migration patterns, and overflight rules governing our flying over sensitive areas.

**Directions:** From highway 101 head east toward the bay, turn left after the golf course. West Valley Flying Club is the second driveway on the right. Overflow parking in the golf course lot.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
